KELLEREI CANTINA

THE WINE REGION

Isarco Valley: a place like no other

The Isarco Valley is Italy's northernmost wine growing region and is situated amidst the impressive scenery of the Italian Alps where mountain peaks and Mediterranean landscapes are neighboring each other. Wine from the Isarco Valley is full of character and elegance stemming from vines that have been cultivated since ancient times.

Steep slopes

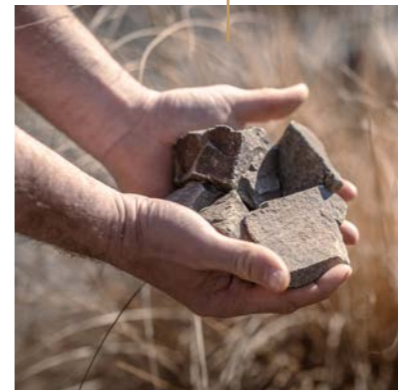

TERROIR

Where quality is rooted

Well-kept natural stone walls which were built centuries ago, characterize the landscape in Isarco Valley and allow for viticulture on the steep slopes. The cooler climate prevalent at high altitudes of up to 1000 metres above sea level allows us to produce wines full of character and of outstanding quality. The vine's roots work their way deep into the barren soil, absorbing precious mineral nutrients. The soil consists alternately of quartz phyllite, diorite and volcanic porphyry.

The so-called "Klausenit" is a unique diorite formation found around the Sabiona Monastery near Chiusa.

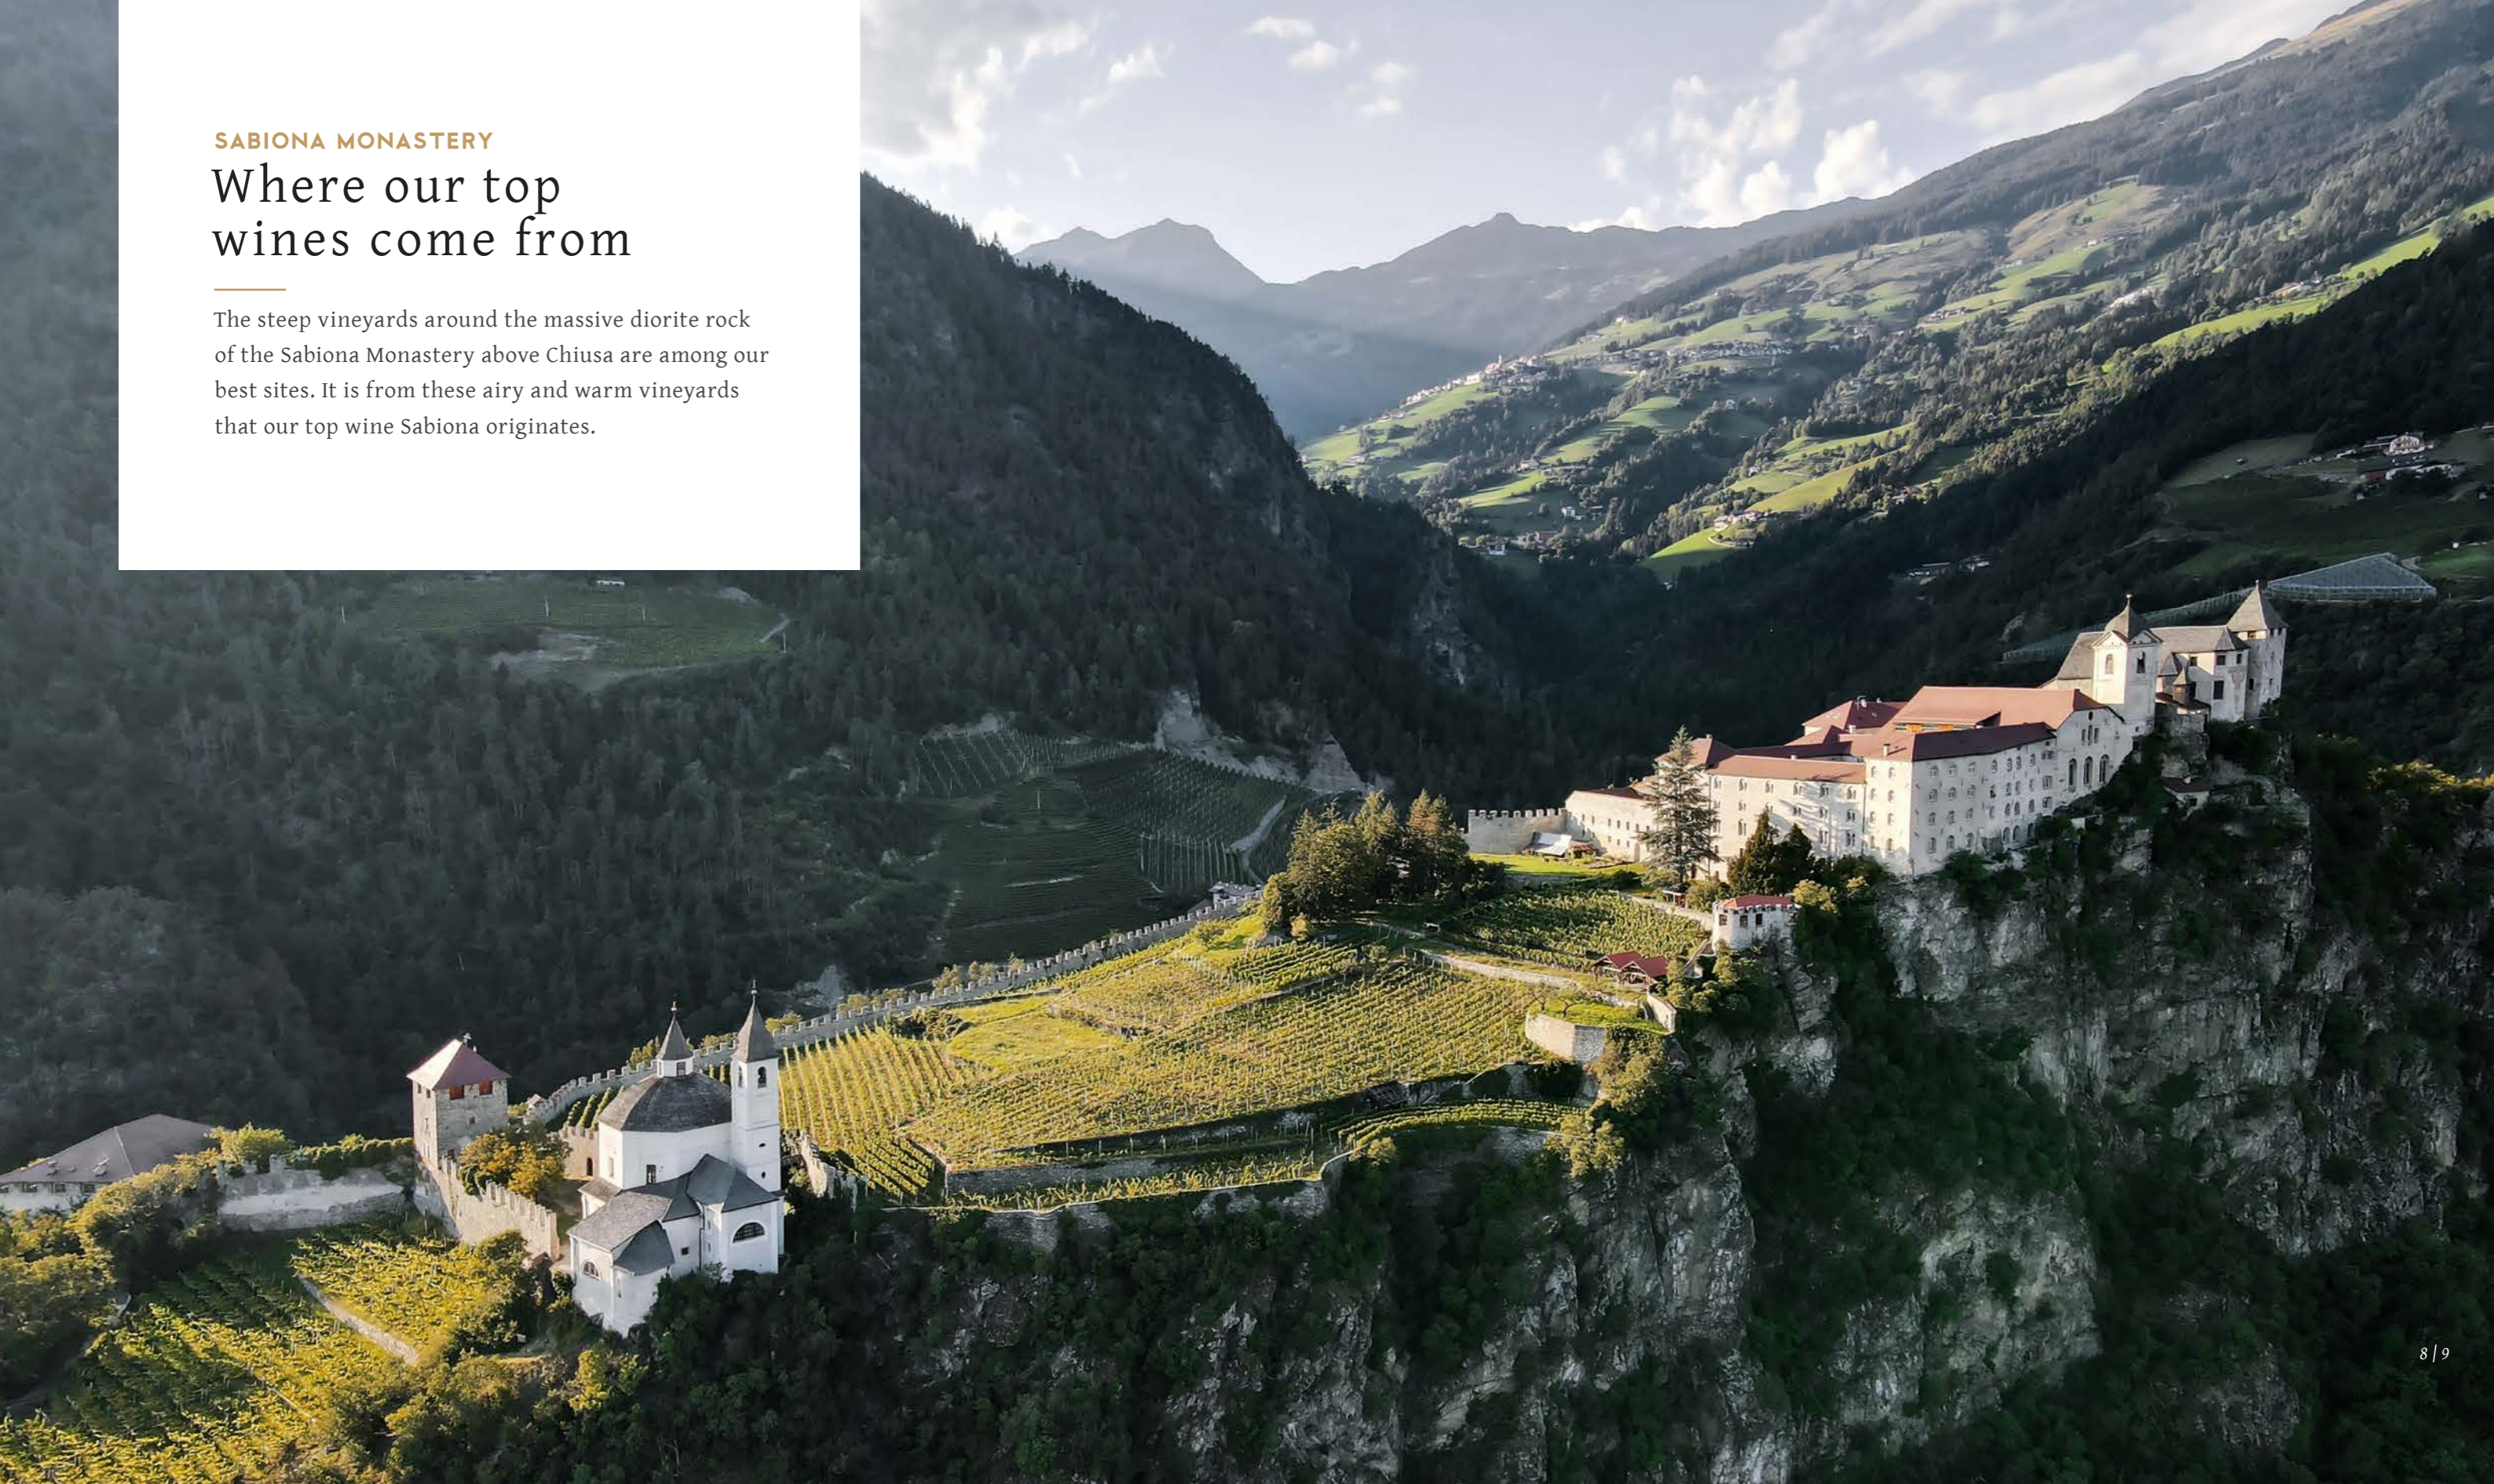

The variety of soils, large amounts of sunlight and good distribution of rainfall help our wines develop a wide spectrum of aromas. The strong temperature fluctuations caused by the proximity to the Dolomites also do their part.

SABIONA MONASTERY

Where our top wines come from

The steep vineyards around the massive diorite rock of the Sabiona Monastery above Chiusa are among our best sites. It is from these airy and warm vineyards that our top wine Sabiona originates.

Our growers,
willing to
always give
their best

VISION AND MISSION

A sense of community is our guiding principle. Our goal is to produce high-quality wines through careful grape processing, thereby expressing our respect for nature and our loyalty to the generations to come.

FARMING FAMILIES AND THEIR VINEYARDS

The precious knowledge of our winegrowers lie at the heart of the winemaking tradition in Isarco Valley. Working the terraces that surround the farms requires constant care and attention from the 135 family-owned businesses, 365 days a year and in many places exclusively by hand.

CANTINA VALLE ISARCO

The essence of excellent white wines

Cantina Valle Isarco is Alto Adige's youngest winemaking cooperative and was founded by 24 winegrowers in 1961. Today 135 winegrowers deliver their grapes and entrust them to our experienced winemaker. About 950.000 bottles are produced per year, of which 98% are white wines.

CELLAR

Wines full of character need their time

Wine from Cantina Valle Isarco impresses and delights with freshness and body. Our winemaker tends to the wines with great patience and with refined intuition so that they reach the correct degree of maturity. Due to slow maturation, our wines gain in character and complexity.

By careful processing of hand-picked grapes we create varietal wines with outstanding properties.

No wonder our wines regularly receive national and international awards.

The interplay
of tradition and
up-to-date
technology in the
cellar is crucial.
